

Customer advice

Simple steps to keep your VoCoVo products clean

We Recommend

Each colleague using a Headset should have their own individual wearing style. Before being returned to the charging rack, Headsets should be thoroughly cleaned

How to Sanitise

Using a 70 per cent isopropyl alcohol wipe or Clorox Disinfecting Wipes, you may gently wipe the exterior surfaces of your VoCoVo products.

Important to Note

Do not use bleach. Avoid getting moisture in any openings, and don't submerge your VoCoVo products in any cleaning agents as this will result in damage.

If you have any concerns, please get in touch

At VoCoVo we greatly appreciate the service your teams are delivering daily. We are on hand to offer any support to them that they might need.
