

Quick start Guide

Registering Headsets

VoCoVo

Registering a VoCoVo Headset

If you need to register a VoCoVo Headset (e.g. if you have received new VoCoVo Headsets, or if a VoCoVo Headset has become unregistered from your VoCoVo Go System) follow the following instructions.

Registering VoCoVo devices is a 2 step process:

1. Place the VoCoVo System in Registration Mode:

The method for placing your VoCoVo system into registration mode depends upon the type of system that you have:

GO Systems:

Turn the power to the system off and on, when the system starts up it will be in registration mode.

Other Systems:

Follow the usual procedure for registering devices to your VoCoVo system. If you are at all unsure about this process, please contact your system administrator.

2. Place the Device into Registration Mode:

Ensure the VoCoVo Headset is switched off by holding the volume Up / Down and the menu buttons together, for about 3 seconds. The Led will flash twice and go out.

Enable registration mode by holding the volume up and down buttons and the Push to talk (PTT) button together:

Volume Up

Menu

Volume down

Push to Talk (PTT)

The VoCoVo Headset LED will flash twice a second until it is registered
